

Animal Themed Visual Perception Activity

This printable activity is perfect for toddlers and early pre-schoolers. Print and cut out the mats and pieces.

You can laminate the mat and pieces so that you can re-use the activity as many times as your child would like. If not, you can just print, cut, and have your child glue the pieces on.

Directions: Place each duplicate item on a circle on your control mat. Then hand your child the blank circle mat and have them copy the position of each of the pieces.
